2024 Women in Construction: Marylee Mercy, Studio G Architects

March 29, 2024 - Spotlights

Marylee Mercy
Assistant Project Manager

What was your greatest professional achievement or most notable project in the last 12 months? Receiving the designation of Accredited Learning Environment Planner (ALEP) was a great honor. This credential will boost my ability to effectively communicate with educators, parents, students, and other stakeholders to better understand their needs and goals. Understanding a project's goals from the onset through community outreach allows me to interpret and translate their aspirations into tailor-made learning environments. From sustainability goals and space planning, to finishes and technology integration, the result is more successful projects for communities, students, and educators. I am eager to implement these ideas in our upcoming K-12 projects!
