Metropolitan Cabinets & Countertops

What has been the driving force behind your success in the AEC industry? My driving force in the construction industry stems from professionalism, empathy, and unwavering determination. Working for Metropolitan Cabinets & Countertops, a family-owned business, has provided an environment for my continuous growth in construction. With over 25 years of experience, my journey is marked by a commitment and passion for breaking barriers. I strive to pave the way for women to excel in a traditionally male-dominated field. My success is not just personal; it's a testament to the potential of women in construction that drives me to push boundaries and inspire others.
