2024 Women in Construction: Paula Solemina, BluSky Restoration

March 29, 2024 - Spotlights

Paula Solemina
Regional Business Development Manager

What is your favorite / most beneficial part of Women in Construction week? I have been in the industry for many years and in different roles, from customer service to residential project manager and now sales. My favorite part of WIC week is that I can see women grow in this industry and I find it very exciting! Women in construction have achieved and contributed so much to the AEC industry, and it is great to have a spotlight and hopefully inspire more women to seek a rewarding career in the industry.
