Bufftree Building Company performs renovation projects for Woods Hole Oceanographic Institution

November 12, 2008 - Spotlights

Staff of the Smith Laboratory and the Clark South Laboratory of the Woods Hole Oceanographic Institution (WHOI) are now enjoying a newly renovated conference room and locker room, respectively, thanks to the area upgrades recently performed by Bufftree Building Company.

For many years, Bufftree Building Company has been a construction partner of the Woods Hole Oceanographic Institution, one of the world's largest private, nonprofit ocean research, engineering and education organizations. The partnership has produced projects on the Gosnold Laboratory for the United States Geological Survey and on the Blake Laboratory, the Graphic Services and Vehicle Maintenance Facility, and the Iselin Marine Facility.
