DiPrete Engineering contributes to development of 50,000 s/f Encompass Health Rehab Hospital

September 13, 2024 - Rhode Island

2109 Hartford Avenue, Encompass Health Rehabilitation Hospital - Johnston, RI

Johnston, RI DiPrete Engineering has been a contributor to the development of the new Encompass Health Rehabilitation Hospital, located at 2109 Hartford Ave. Part of the broader Sitwell Park development, this 55,000 s/f medical rehabilitation center is located within an eight-acre parcel, subdivided from the overall 18.5-acre development.

DiPrete Engineering provided a range of services essential to the successful completion of this project, including land planning, land surveying, site grading, drainage, water and sewer services design, as well as securing local and state permits. The team also assisted throughout the construction process to ensure that the project met all necessary standards and was completed on time.

As one of the nation's largest owner and operator of inpatient rehabilitation hospitals, Encompass Health's new facility is poised to offer vital services to the local community.

The hospital will serve as a resource for patients recovering from surgeries, strokes, brain injuries, spinal cord injuries, amputations, and complex orthopedic conditions, providing them with the intensive rehabilitative care needed to regain independence before returning home. With a 50-bed capacity, patients will benefit from a comprehensive care model that includes a minimum of three

hours of therapy five days a week, frequent physician visits, and 24-hour nursing care.

The hospital is designed with the patient's comfort and recovery in mind, offering private rooms, a therapy gym, an activities of daily living suite, and various amenities such as an in-house pharmacy, dining room, and therapy courtyard. These features, combined with the expertise of an interdisciplinary team of specialized nurses, therapists, and physicians, will provide rehabilitative care tailored to each patient's needs.

DiPrete Engineering is honored to have contributed to a project that will have a positive impact on the community. The firm's work on this project reflects its commitment to excellence in engineering and dedication to supporting developments that enhance the well-being of all New England communities.
