Suffolk hires Brault as general manager of the Mid-Atlantic and National Federal Center of Excellence

December 20, 2024 - Construction Design & Engineering

Philip Brault

Boston, MA Suffolk has hired Philip Brault as general manager of the Mid-Atlantic Region and National Federal Center of Excellence. He will be responsible for overseeing the day-to-day operations of the Mid-Atlantic region and continuing to accelerate the growth of its National Federal Government Center of Excellence. The federal government sector is experiencing significant growth, with a strong demand for facility and infrastructure modernization across the various agencies, so Suffolk has positioned itself as a major player in this expanding market. Brault's expertise will be instrumental in driving Suffolk's efforts to capitalize on this growth and set new standards for operational excellence in the region.

"Joining Suffolk is an incredible opportunity to work with a firm at the forefront of innovation in the construction industry," said Brault. "I look forward to collaborating with a team dedicated to transforming the construction space and setting new standards for excellence."

Brault brings more than 20 years of experience managing complex and highly visible projects. For the past four years, Brault has managed a portfolio of work throughout the Mid-Atlantic as the regional director for Consigli's Washington, D.C. team, where he spearheaded growth and development in the region. His portfolio includes significant projects across the federal, education, museum and cultural, hospitality, and public institutional markets, including the Lincoln Memorial Undercroft, Ft. Meade Freedom Center IV Barracks, US Naval Academy MacDonough Hall, Smithsonian National Air & Space Museum Revitalization, and the NAFVAC Washington Large Construction MACC program.

Brault has also been active in the community, including serving as a member of the Board of trustees for the D.C. Preservation League, as well as a member of the Climate Action Committee and the Historic Project Review Committee. He is also a Trustee with the Federal City Council where he and other industry partners helped spearhead the DC Builds DC program, helping to connect local residents and students with jobs/careers in the construction industry. Brault has been recognized with awards including the Boston Business Journal's 40 under 40 and Preservation Massachusetts' Tsongas Award.

Suffolk is experiencing significant growth across its Centers of Excellence, with a diverse portfolio of work that includes Terminal E at Boston Logan International Airport, Dallas Fort Worth International Airport's electric Central Utility Plant, UMass Amherst's P3 Student Housing, USACE Tier 3 Main Computer Room - Jamaica Plain VA Medical Center and South Station Tower in Boston.
