J. Calnan & Assocs. completes 100,000 s/f electronics manufacturing facility for EIT Zollner

April 04, 2025 - Northern New England

Salem, NH J. Calnan & Associates (JC&A), a leading provider of preconstruction and construction management services in the Northeast, has partnered with Currie Project Management, LLC, ahp Architects, and Avid Engineers to complete the construction of a new 100,000 s/f electronics manufacturing facility for EIT Zollner at 9 Northeastern Blvd.

The project involved demolishing the existing space and converting it into a facility focused on circuit board production and testing. The new facility enhances EIT Zollner's ability to meet growing customer demands, providing additional production capacity and expanded capabilities.

This expansion strengthens EIT Zollner's presence in critical markets, including industrial electronics, healthcare & life sciences, aerospace, and defense. The facility also reinforces the company's strategic position on the East Coast, allowing them to better serve customers and strengthen their competitive edge in the electronics manufacturing industry.

"We are proud to have been part of this transformative project, which not only provides EIT Zollner with a cutting-edge facility but also demonstrates the ongoing collaboration and expertise of our team and partners," said Jeff Cameron, project executive and partner at J. Calnan & Associates. The project highlights JC&A's commitment to delivering high-quality construction services that meet the needs of today's evolving industries.
