Dorchester, MA Construction Management and Builders, Inc. (CM&B) recently completed MAX Ultimate Food, a division of Restaurant Associates's new cutting-edge catering facility and corporate headquarters.

CM&B has transformed a 27,000 s/f building into a three-floor catering facility for MAX Ultimate Food. This new space represents both innovation and a proud addition to the Dorchester community. MAX Ultimate Food is excited to join this vibrant neighborhood and looks forward to building local connections, creating job opportunities, and contributing to Dorchester's

continued growth.

The completed project features a 14,000 s/f advanced kitchen, including over 2,500 s/f of cooler and freezer storage. Four new coolers, operating across multiple levels, are all connected to a rooftop refrigeration system. At the heart of the facility is an extensive network of specialized cooking equipment, including multiple fryers, Combi Ovens, and Tilt Kettles, all housed beneath a 65+ foot stainless steel hood system. To power the operation, CM&B installed approximately 10 miles of new electrical wiring and subpanels, ensuring seamless functionality throughout the facility. Additionally, the building includes 10,500 s/f of modern office space, complemented by an innovative Tasting Room that brings events to life featuring premium technology and a showroom provided by PEAK Event Services.
