Integrated Builders completes 10,000 s/f interior office project

December 02, 2008 - Front Section

Integrated Builders, a construction management, design-build and general contracting firm, has completed a 10,000 s/f interior office and R&D fit-up project for Panasonic.

"We're very pleased to have completed this project, which was a very challenging and sophisticated project from mechanical and electrical point of view" said Jay Dacey, president of Integrated Builders.

Architect for the project, located at 2 Wells Ave., was Harrison Mulhern. ADA Engineers served as project engineer.

Panasonic relocated its advanced laser R&D operations to Newton from 68 Roger St. in Cambridge.

About Integrated Builders:

Integrated Builders provides construction management, design/build and general contracting services to discerning developers and owners in various disciplines in commercial markets region wide. From ground-up construction to tenant improvements, rehabilitations and property repositionings, the firm has repeatedly proven its value due to a unique ability to complete projects "From a Client's Point of View."
