Blais promoted to senior vice president and construction support services manager at TFMoran

October 24, 2025 - Construction Design & Engineering

Daniel Blais

Bedford, NH TFMoran has promoted Daniel Blais, CPESC to senior vice president and construction support services manager. Blais has over 30 years of experience in project planning, site engineering, permit processing, and construction engineering support services. Blais oversees TFMoran's stormwater compliance group. His years of experience working with regulators and contractors ensure projects are constructed efficiently and in full conformance with all necessary stormwater compliance items.

Blais holds a master of science in environmental engineering, ABT and a bachelor of science in civil engineering from the UNH.

He also served as a visiting scholar at the Budapest University of Technology and Economics. Blais is a Certified Professional in Erosion and Sediment Control (CPESC) and a Certified Erosion, Sediment, and Stormwater Inspector (CESSWI). Blais is a former chairman of the New Hampshire Department of Environmental Services (NHDES) Water Quality Standards Advisory Committee and the Environment Committee of the Associated General Contractors of New Hampshire. He is also an active member of the government & legislative affairs committee of the New Hampshire Home Builders Association and represents them on the USEPA Construction General Permit Rules Advisory Panel.
