Polar Design Build awarded work for Copeland Toyota

October 24, 2025 - Construction Design & Engineering

Brockton, MA - Polar Design Build, a construction management firm that provides general contracting services to clients in the New England region, has started to implement tenant improvements for Copeland Toyota, located at 970 West Chestnut St. Mangel DeStefano Architects will be responsible for design build on the MEP's.

Copeland Toyota will feature new modern updates throughout the customer lounge, showroom area, cafés, customer use business center and accessories room. The upgrades will be completed in a number of stages, from bathroom remodels in the customer lounge to updated drive-in and service reception areas. There will be a full interior glass rail system, epoxy flooring in the service drop-off bay, HVAC upgrades, new tile flooring throughout, all new millwork and furniture.

The sales area and will feature a new nail salon in the customer lounge. All updates are expected to be completed by years end.

Polar Design Build is your single source for project management, planning, design, engineering, preconstruction services and construction in the New England market. Polar coordinates with designers and supervises the most qualified subcontractors throughout the construction process.

We are dedicated to customer satisfaction, high quality workmanship and excellent customer service.
