HDS Architecture designs 10,000 s/f Talbots store

December 24, 2008 - Retail

The new 10,000 s/f Talbots, designed by HDS Architecture of Watertown, Mass., has just been completed, featuring the three Talbots concept.

HDS Architecture is an international architectural design firm specializing in commercial and residential projects. The new Talbots is located in a highly visible location, replacing an existing strip mall.

"We are excited to have reenergized an existing underperforming retail site with a new high quality retailer and eye catching building," said Hans Strauch, president of HDS.
