Flynn Const. completes 14,500 s/f addition for Hendrix Wire & Cable

March 04, 2009 - Northern New England

Flynn Construction Corp. expanded Hendrix Wire & Cable's operations at 53 Old Wilton Rd. Construction of the 14,500 s/f manufacturing addition was completed in January. The project cost was \$830,000.

Energy conscience improvements were integrated conforming with "Green Building" criteria, including high R-value insulation system, a "Cool" roof to reflect sunlight and reduce solar heat gain and ground water recharge system.

The project engineer of record was Arthur Rose Sr., PE.

Flynn Construction Corp. is a full service design/build general contractor serving all of New Hampshire specializing in commercial and industrial new construction and renovation. They are a member of the "Green Building Council" focusing on energy efficient steel building and masonry structures. Flynn provides an economical alternative for the end user in the construction of institutional, medical, service, manufacturing, retail, multi-tenant and warehousing projects.

Hendrix manufactures and supplies medium voltage underground and overhead cable systems for Power Utility and wind energy markets.
