MassHousing to loan \$1 million for the redevelopment of Longhill Gardens

July 08, 2009 - Financial Digest

MassHousing will loan up to \$1 million to WinnDevelopment of Boston for the acquisition and renovation of Longhill Gardens, which will result in 109 renovated units of quality rental housing.

Longhill Gardens is a severely distressed development that has been condemned, boarded up and left vacant. The developer intends to demolish approximately 100 housing units at Longhill Gardens and improve 109 rental units, of which 88 will be reserved for low-income families. The remaining 21 units will be rented at market rates.

The new development will feature 69 one-bedroom apartments and 40 two-bedroom apartments. In addition, the redevelopment will include an increase in off-street parking, a playground, security camera installation, a brand new community room, and a new laundry room.

"Longhill Gardens is a severely distressed housing community that is in need of a complete makeover," said MassHousing executive director Thomas Gleason. "When this project is completed, this blighted development will be replaced with new, quality affordable housing that will be a major new housing asset for the community and its residents."

Longhill Gardens was originally built in the 1950s as a 211-unit rental development and was converted to condominiums in the late 1980s.

"Utilizing federal and state resources to rescue a failed market-rate condominium project such as Longhill Gardens, which currently sits condemned and boarded up and has no feasible alternative in the marketplace, is directly responsive to national priorities," said Gilbert Winn of WinnDevelopment.

"MassHousing and Department of Housing and Community Development (DHCD) deserve credit for quickly and efficiently deploying their resources to ensure that this property does not sit vacant and abandoned a day longer than necessary and can be placed back on the city's tax rolls as an asset to the community rather than a blight."

Other funding sources include \$1 million from the Affordable Housing Trust Fund, which is managed by MassHousing on behalf of DHCD, \$750,000 in DHCD Housing Stabilization Funds, \$550,000 in city of Springfield HOME funds and \$550,000 in state HOME funds. Nearly \$17 million in equity for the project is expected through the sale of federal and state low-income housing tax credits.
