O,R&L Commercial LLC www.orlcommercial.com

September 02, 2009 - Connecticut

The design of our company is no chance occurrence. We are comprised of three specific divisions that work as a complementing analytical team - Commercial Construction, Real Estate Marketing & Brokerage, Facility & Property Management. Each division is supervised by one of the four partners in his area of expertise. The partners have a successful background in advising investors, corporations and public institutions on the complex issues affecting business owners and managers. In today's challenging management environment, owners are asking questions that require a comprehensive, strategic approach to problem solving: Where do I locate my company? How do I build my building on time and on budget? How do I manage my building to protect my investment for the long term?

O,R&L's knowledge, forefront technology and professional staff are the dynamic team you are looking for.

We have earned a solid reputation for personal service, high standards, professionalism and quick turn around time on projects large and small. With hands on participation by the company's principals, and their careful attention to detail, you can be assured that no job is completed until our clients are satisfied
