Managing Workers Comp Costs - Sept. 30

September 15, 2009 - Construction Design & Engineering

Understanding workers compensation premiums and cost drivers in the construction industry is a challenge under the best of circumstances - and it becomes even more so when "wrap up" projects are involved. On Sept. 30, 8:00-10:00 a.m. at the Westin Waltham, ASM will host a seminar on "Understanding Workers' Comp Costs on Wrap Up Projects" featuring well-known risk management expert Bonnie Brook of Stephenson & Brook. In this advanced level seminar, she will discuss the effects of wrap ups on your mod factor, and provide information to better control claims in this arena and mitigate the effects on your bottom line.
