All-Pro Electric, Inc. completes 33KW solar PV installation at Melrose Veterans Memorial Middle School

October 14, 2009 - Construction Design & Engineering

In May 2009, All-Pro Electric, Inc. of Bradford, Mass., completed installation of a 33KW solar photovoltaic system at Melrose Veterans Memorial Middle School. The rooftop system is comprised of 176 190-watt Evergreen Solar photovoltaic panels, and 2 Solectria Renewables inverters. All-Pro Electric provided both design and installation services for the grid-tied project. The NECA Boston Chapter member performed the installation while school was in session, handling the project in a manner to ensure there was no disruption to classes. All-Pro Electric provided the project for the city of Melrose. Electrical engineering services were provided by WSP Flack + Kurtz, Boston.
