Flynn builds 7,800 s/f facility for Ciardelli Fuel

October 01, 2009 - Northern New England

Flynn Construction Corp. has completed construction of the new facility for Ciardelli Fuel Co. This 7,800 s/ steel and concrete building will accommodate oil and propane delivery trucks required to service the surrounding communities. This new facility enables the owners to continue their on going effort to conform with today's standards of clean environmental practices.

Flynn Construction Corp. is a full service design/build general contractor serving all of New Hampshire specializing in commercial and industrial new construction and renovation. They are a member of the "Green Building Council" focusing on energy efficient steel building and masonry structures. Flynn provides an economical alternative for the end user in the construction of institutional, medical, service, manufacturing, retail, multi-tenant and warehousing projects.
