Company Profiles - Mass Cabinets Inc.

October 20, 2009 - Green Buildings

Mass Cabinets is a custom cabinet and architectural millwork company. For the past 20 years we have specialized in the fabrication of plastic laminate cabinets and countertops for commercial and institutional projects. We also can provide a full selection of architectural millwork, historical renovations in addition to moldings, sidelights and door frames. We are a certified solid surface fabricator and installer. We are also a full service Merillat distributor of retail kitchen and bath cabinets that is an excellent alternative from custom casework.

Mass Cabinets operates out of a 20,000 s/f manufacturing facility located in Methuen. With modern equipment and a highly skilled production team we consistently produce quality large and small jobs on schedule. We use our own labor workforce from shop drawings, field measuring, fabrication and installations.
